The fire brigade was called out last night between the hours of 12 and 1 and did yeoman service in fighting a fire in Mrs. M. Jervis' millinery store on Ross avenue. The fire was quickly extinguished but the stock of millinery, fancy goods, etc., was practically ruined. The actual cause of the fire is unknown, but it is thought it started from the furnace in the back of the store. The fire broke out some way. Had the fire gained any headway nothing could have saved the stock down as far as the South. Guests back as the intervening buildings are all frame and are very close together.

WETASKIWIN.
Bulletin News Service.
The most enthusiastic and best attended curling club meeting ever held was that of last Friday evening. Prospects are bright for a good season's sport, and every eye is turned to the rink.

In the absence of Dr. Robertson, president, abroad, C. C. James, removed, Geo. D. Wallace, absent, J. F. Fowler was called to the chair and officers were elected as follows: President, Dr. H. P. Walker; first vice-president, Wilfred Forbes; second vice-president, W. J. Stephenson; secretary-treasurer, Teller Franklyn; Merchants' bank, convoking committee, Messrs. Rix and Horie. For will be \$10, including for private and club membership for the year, while beginners will be allowed to rent skates, some four per cent provided for that purpose. The hockey league to include Wetaskiwin is an entirely materialize as far as this city is concerned. Wetaskiwin is saving up for the big hockey season next summer, pinning her faith to that and Deacon White.

A new teacher has been added to Alexandra school staff, in the person of Miss Made E. Burns, of Peterborough, the holder of a first-class permanent certificate for Ontario, who comes with exceptionally high testimonials from various inspectors, including Duncan Walker, his inspector for Peterborough schools. The progressive, liberal policy of the board of education is well shown in the appointment of Chairman Fowler, whose name has been given to the school and broad-mindedness. Miss Burns takes charge of the sixth term in the school. If the pupils continue coming in the big assembly hall will need to be made up of two class rooms.

W. J. MacNamara was in the Capital last week on a business trip.

Miss Jean Major, of the Alexandra staff, has been quite ill this week. Miss Burns is substituting.

The tennis friends are still enjoying daily games, as the fine weather seems destined to last till Christmas. In fact, the last six or seven weeks have produced better tennis weather than the whole summer did. The recent United arrival are surprised and delighted at the way Sunny Alberta relieves them, whereas they unanimously agreed to leave shortly after November weather.

The court of law proceeds slowly. Many cupfuls of earth have been excavated, and the construction of the full new being. A tool house has been set up and a few other things are being done. The spoiling of many lusty young trees in the park is being with regret.

J. K. Burns, of Calgary, accompanied by his father-in-law, visited here for a few days last week. He is in the city Saturday last. He plans his faith to Camrose still, though the C. P. R. has been asked to run the train for the present at any rate, running the train to Camrose from Killam instead of from the Wild Rose City of the ubiquitous and everlasting "growth."

The Athleta club is to be the name of the Methodist Young People's association, the full name being "Athleta Club" (I speak higher things). This suggestion of Dr. Dalgair was unanimously adopted by the committee at a recent meeting when a program for the remainder of the year was drawn up. On alternate Wednesday evenings will be given to be taken, the first, St. Paul at Damascus, coming with his trial and work at Jerusalem, Athens and Rome. The evening of Nov. 20th will be a social evening, the Ladies' Aid taking full charge, providing program, games and refreshments. Dr. Dalgair will be a debate between public men of the city and on Dec. 16th a lecture from Mr. Kerby, of Calgary, or some other popular speaker.

Summer cottages at Gull lake are already being planned by enthusiastic citizens. This has become a very popular resort, but many say Tigon lake is even superior though harder of access.

Bunches of coyote heads, in each hand, a countryman strolled into the city recently. The animal is being held as bonus and thick as he is.

A red shirted Red man says a big fellow stopped and snatched at a gun but showed little fear. Some local shots are enjoying a few shots. Shortly they find it hard to get within range. Several splendid models of the pure bred greyhound and wellbought type have just come to town and could be depended on to run down coyotes or anything else on four legs.

Building is still brisk. Many fine houses have gone up or are still in the course of erection. Several miles of well built sidewalks have given a civilized appearance to previously bare, barren streets.

The board walk has been built on East Pearce street, past the new court house site.

J. W. McKinley, real estate man, is deliberating on how to find the winter. Mac's choice inclines to Pasadena, Cal., "where they play tennis all winter long." He will probably hibernate there.

Miss Burns is spending a few days with her friends, P. C. and Mrs. Dolsen, before leaving in the city.

Uncle Tom's Cabin brought out the usual number of admirers of this time dramatic story. The company put up a very creditable performance.

The council have resolved to wait no more time at present on possibilities but have ordered the well drilling apparatus removed to a location near by opposite MacDonald street, where boring for water has been already commenced. The previous well-drilling has shown that there is coal and gas and most of the citizens are unbounded faith that great developments will shortly be seen here.

The new station is progressing nicely, though it cannot as yet be determined what its appearance will be nor its architecture. Wetaskiwin will take what it may get with gratitude, but a stone or brick building would be the dearest thing surely for a June line point.

The weight scales for the city appear to have been set up at last, after months of lying useless, unutilized. The apparatus have been filled in and the work will be now being completed.

HE WOULD LET ASIATICS ENTER

Rev. Dr. Johnson Delivers Striking
Address at Montreal Banquet
on Asiatic Question

Montreal, Nov. 10.—John A. Flett, Hamilton, Canadian organizer of the American Federation of Labor, criticizes the remarks of Rev. Dr. Johnson on the Asiatic question in British Columbia before the manufacturers' banquet at the Canada club on Tuesday night. In Mr. Flett's opinion, Dr. Johnson did not know who he was talking to when he addressed the manufacturers. He did not suppose Dr. Johnson ever had experienced manual toil, and consequently, by reason of his environment and education, could not sympathize with those who depended upon the state of labor for their living. Flett declared that the statements made by Dr. Johnson were productive of a large army of skepticism and scoffers.

The address to which Mr. Flett had reference was delivered by Rev. Dr. Johnson, pastor of the American Presbyterian church on his return from a tour of the week, during this tour he studied the Asiatic question in British Columbia, and during the anti-Asiatic riots. In his address he declared the policy of Asiatic exclusion to be not only unjust, but undesirable and inexpedient.

In quoting, he declared that the question was one in which the people of British Columbia were obtaining the right to take the whole control and were taking it unfairly. The people of British Columbia should learn to think more than locally.

Make Fair Exchange.
"Here you have," he said, "on one side the Northern Pacific, a great land occupying half a continent, but recently discovered even to land-owners by itself, but a land that yields results of its measureless wealth to hardy and persistent toil. On the other side is a great population, crowded, suffering, starving, of not less than five hundred millions. The ocean separating these lands has been bridged, and it would look as though, while the products of one should flow into the hungry markets of the other, the labor from across the seas should come to us and help in the development of our as yet undeveloped resources. But now a barrier has been put between the markets of China and Japan must contain open for our trade, the Chinese and Japanese must not be sharing the wealth of this new land. This does not seem fair."

Is Exclusion Impossible?
"Aside from all questions of expediency or of justice," continued Dr. Johnson, "I do not see that a policy of exclusion is possible. Two thousand years ago Caesar could not drive his chariot around the Roman empire in a hundred days, today we can circle

the globe in less time. Every nation has free communication with every other and is becoming assimilated through the interchange. Almost China and Japan are on the way to greatness, are opening their doors to science and are embracing the greater world knowledge. At this stage of the world's history it is impossible for any great nation to close its doors to the sons of any other nation, and Canada cannot close her doors to China and Japan. It is not a question of man and armies, it is a question of the spirit of the age. There are world tendencies which a nation cannot oppose and prosper.

Hindoo Immigration.
"The Hindoo immigration is not one of serious dimensions. Small now, it would in the course of a few years stop of itself, and Canada need fear no friction through it, with the government of India. The Hindoo is a being not suited to the climate of Canada and he will soon become fully cognizant of the fact, and either stay at home or take to other lands. The question of Asiatic immigration then resolves itself fully into the Chinese and Japanese question."

A policy of exclusion, the speaker further declared, seemed to him as needless as it was unjust and impossible. The composition of Oriental labor was used as a reason for the exclusion of the Oriental, but today most Canadian workers were then, any other single community was labor."

"We have undervalued wealth," he said, "in almost every form in which it is found in any part of the globe; we have capital within the empire waiting for investment, what we have not and what we must have if our land is not to lag in the race of especially at that time that will submit to the hard conditions and endure the severe toil inevitable in the pioneer work of development in a land like ours."

Comparisons in Morality.
"The Oriental has been declared to be immoral and filthy. His life is in it is no small measure due to the other condition of the quarters where he is herded, and for this the ground of landlords is not infrequently to blame. It is true the Chinese smokes opium, but medical men will tell you that it is other habits of Vancouver, living in that city and doing drug usings not unknown. I admit that if two Chinamen found themselves together and unoccupied, they would be inclined to gamble, but let half a dozen society ladies in Montreal be thrown together, and it is questionable if some one of them will not produce the necessary material for a game of bridge."

"Two things are possible and are necessary. Let the government demand of all who come, Asiatic or European, obedience to certain standards of morality. If these standards are prevented, the number of occupants of a house or to a block of houses, or a city, can be limited. A Chinese and a little Italy can both be made an improvement. Much would be done toward encouraging morality here Japanese and Chinese alike be required to bring their wives and families."

That, too, was a possible regulation which the government should enforce. The hearty and general applause which greeted Mr. Johnson's remarks was a proof of the sympathy which the manufacturers of Montreal had with his views.

Pre-historic Monster at Vancouver.
Vancouver, Nov. 11.—There is now to be seen at the city hall almost a perfect skeleton of the elephant primeval. As almost perfect specimen was taken out of an ice bank in Siberia in 1790 and this is the most perfect specimen that has been discovered since that time. The monster must be seen in order that it may be realized that the animal when alive could have leaped the city hall in which its bones are now housed, out of its way as easily as a man knocks the head off a newly sprouted bit of bracken.

Moose Jaw Supreme Court Opens.
Moose Jaw, Sask., Nov. 12.—The first session of the judicial province court to be held in Moose Jaw opened this morning. Justice Johnston presiding. The members of the bar present were: Grayson, Armstrong, Proctor, Wilmshurst, Taylor, Farrell, also Spencer and Fletcher, clerk and sheriff. John Barlow pleaded not guilty to the charge of administering poison to Annable with intent to kill. James Ostrander, pleaded not guilty to the charge of stealing a heifer, the property of John Bairstown. A peculiar type of insanity was not before the jury in the person of an Indian, "Sugar". He is charged with the murder of another Indian, "Short Legs," near Maple Creek, and pleaded not guilty to the charge. The case will not come up for trial for some days. This concluded the adjournment and the jury was then sequestered, without costs. This was a suit brought by the company to recover the city to go on with the electric light business. Legislation of last session has changed up the situation, so that the suit falls to the ground.

Maritime Provinces Prosperous.
St. John, N.B., Nov. 14.—Bankers and manufacturers are of the opinion that New Brunswick and the Maritime provinces generally will be less affected by the money stringency than any other part of the Dominion. No evidence of depression is here. The only cloud being a weak condition of the British Empire, which may cause a curtailment of the winter logging operations.

City Wins Against Corporation.
Ottawa, Nov. 14.—In the Supreme court this morning the suit of the Ottawa Electric company against the city of Ottawa was dismissed by agreement, without costs. This was a suit brought by the company to recover the city to go on with the electric light business. Legislation of last session has changed up the situation, so that the suit falls to the ground.

WILL RENTS COME DOWN IN CITY?

More Empty Houses This Year Than Last—Conflicting Opinions of Real Estate Agents.

In Edmonton entering upon an era of lower rents? Real estate agents refuse to admit it, but the fact that some of them decline even to discuss the situation is in itself significant, and there are other indications that a fall in rents in the city may be looked for. Some of the agents who have houses to rent, soot at the suggestion that rents will drop, and they fortify themselves with this position by the argument that with the introduction of winter and severe weather, the security of the tenantry from their canvas houses to warmer shelter will fill up all the empty houses in the city at present, and thus allow the owners of houses to maintain the rents at high figures.

That there is more unlet property on the market at present than there was at this season last year is, as a matter of fact, admitted by the real estate agents themselves, and although they give few to regard the slump as merely a passing phase which will have no effect upon rents, there is in the circumstances reason to anticipate that before the winter is far advanced the difficulty which has obtained too long in Toronto in regard to renting houses in the reasonable figure will have been materially lessened, and that, too, despite assurances on the part of some property owners that they will allow their houses to stand empty rather than reduce the rent.

There are not many empty houses in the west end of the city, but in the east end one real estate agent declares he alone has 58 unoccupied houses on his hands. At the time last year there were not more than 10 or 12 empty houses in the whole city. The agent referred to stated to a Bulletin reporter today that he rented a house yesterday for \$16 for which the former tenant paid \$25 per month. He added that rents were down and would fall further. This was particularly true of the east end where the class of houses now renting at \$10 and \$15 would find themselves without tenants.

Some Refuse to Speak.
"I decline to say anything about it," was the answer given by several other real estate agents to inquiries made by the Bulletin. Others when approached admitted, as has already been indicated, that there were more houses to let than last year, but differed in their reasons for increase.

Thus one stated that houses were still as scarce in the west end as ever, and would remain so, but that a good many were to let in the east end of the city. His view was that the excessive cost of living was causing people to economize where it could be done, and this led to their renting smaller houses, sharing a house with another family or taking rooms in a boarding house. There was

always a slump before the winter set in, he said, and he saw no reason to anticipate that there would be a fall in rents in the immediate future.

Many More Are Boarding.
Another real estate agent pointed out that a large number of new houses had been built in the city during the past year, and suggested that the demand for them might account for the unusual number of houses to rent. People had come to appreciate, he said, that it was to their advantage to have houses of their own, and the result was that many were purchasing instead of renting. On the other hand, it was also the case that boarding was on the increase, and that would have the effect of swelling the number of houses to let. As to whether the fall in rents might be looked for he preferred to express no opinion.

The general tightness of money was advanced as an explanation by a third agent. There had been too much building, he declared, and being unable to obtain loans owing to the present stringency in the money market, builders were in some cases finding it expedient to let their houses for the winter rather than keep them standing empty waiting on purchasers. It was also the fact, he said, that some people were purchasing houses and then letting them, instead of going into residence themselves.

Another agent, who holds houses in the west end, declared emphatically there would be no further reduction in rents. He admitted there were more vacant houses at present than at this time last year, but many of them were being held for sale, the owners preferring to have them empty than to run the risk of having them defaced by careless tenants.

He also used the argument as to the weather. The winter months have been weather here was colder, and gave the opinion that there was not much likelihood of more people boarding than are doing so at present.

But no matter what the opinions and arguments of the real estate men may be, the general public is anxiously awaiting a reduction in the excessive rents being charged at present.

ABOLISH LEVEL CROSSINGS.

Railway Commission Aims at Total Abolition of Level Railway Crossings.
Toronto, Nov. 13.—A general plan for the total abolition of the dangerous level railway crossings in Canada is under consideration by the Railway Commission.

The engineers of the commission are at present collecting information and data towards this end and preparing plans and estimates to aid the Commission in grappling with this problem, "one of the largest and most serious, with which the Commission has to deal," the chairman, Mr. Justice Kilgus, said, in an interview here.

"The Commission," said Mr. Kilgus, "is profoundly impressed with the necessity of dealing with the evil of the level crossings by some general plan which shall save in time and money the lives of the people. Hereafter we have been called upon, from time to time, to supply adequate protection in various individual cases. It is our purpose to devise some practicable plan of dealing with the problem generally. With this end in view the engineers of the commission are now at work preparing plans and estimates."

"How is it proposed to supply the protection?" he was asked.

"By bridges and viaducts, wherever the traffic demands them, and the surroundings in any way lend themselves to their creation. It is planned, of course, to start with the crossings which are most in need of protection and extend to all others with the greatest rapidity possible."

HE WAS MISQUOTED.

Mr. Weir Makes Clearer His Remarks About Church-Members and Voting.

Quebec, Nov. 13.—Hon. W. A. Weir claims that he was misquoted in the papers in the report of his speech at the Wesleyan College last night, in which it was stated that he accused church members of selling their votes.

"I made it clear," said Mr. Weir, "that instead of members of annual church synods and conferences passing resolutions holding the government responsible for any rampant electoral corruption, it would be more practical for the ministers composing those bodies to impress the duty of national and personal electoral integrity on their congregations. This had not been done largely in my experience. To root out the evil of corruption we must start at the foundation. It was shocking the notion to blame the government in the midst of elections. I did not hold the ministers or church responsible for wrongdoers, but alleged that the method of attacking the evil through the machinery of annual ministerial gatherings directed against the gov-

ernment, was not satisfactory and was even to a large extent unfair."

HANDS TERRIBLY CRACKED.

ZAM-BUK HEALED THEM.

Over and over again the value of Zam-Buk for chapped and cracked places has been demonstrated. Mrs. Melton, of Portland, adds her testimony, and says: "My hands were so sore and cracked that I could not put them near water. When I tried to do so they would smart and burn as if I had cut and them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and the pain subsided when all else had failed. It closed the big cracks gave me ease, soothed the inflammation and in a very short time healed my hands completely."

Hands that are chapped may be restored to the smoothness of health by judicious application of Zam-Buk.

The value of Zam-Buk, either as a protective or a corrective cannot be over-estimated. A box should be on every dressing table.

Zam-Buk heals sore, chapped, cracked, skin eruptions, ulcers, ringworm, freckles, rash, blood poison, bad feet, salt-rheum, abrasions, abscesses, cuts, burns, wounds, and all skin injuries and diseases. Of all stores and druggists at 25 cents, or from Zam-Buk Co., Toronto, for price, 2 boxes for \$1.25.

Satisfactory Furs

Gentlemen—To be able to decide on what you want in a Fur or Fur-Lined Overcoat it is necessary to have a good assortment to choose from. You cannot buy satisfactorily when you only have half a dozen coats to look at, and probably only one or two of those in your size.

We carry a Big Stock

In fact, we carry one of the largest stocks west of Winnipeg. This is true, not only as regards Fur and Fur-Lined Overcoats, but also with Fur Caps, Fur Mitts, Fur Gauntlets, Fur Collars, Fur-Lined Gloves, etc.

Take a Look at Our Windows

then come in and examine the goods.

We know we can fit you. We know we have what you want. We know you will want what we have. We know our prices are the lowest. We know the quality is the highest.

CALGARY HOCKEY.

Calgary, Nov. 13.—The Calgary Hockey club held a meeting last night in the Carnegie library, to elect officers for the coming season. The meeting was very enthusiastic. W. Stokes was voted to the chair, and in calling the meeting to order, he stated that the club had been called for the purpose of electing officers for the coming season. The arrangements for securing a rink for the season.

The election of officers resulted as follows:

President—M. R. McCarthy, M.P.
Vice-President—William Stokes.
Secretary—A. J. Moir.
Manager—A. McDonald.
Treasurer—A. McDonald.
Committee—A. McDonald, J. Thompson, C. Rossell and D. McLeod.

A special committee, consisting of A. Fidler, W. Stokes and D. McLeod, was appointed to draw up an agreement and arrange for the rink for the coming season, getting special hours for practice and matches, etc. The club decided to have the same colors as last year—green and white.

The team will play strictly amateur hockey, and will endeavor to have a league formed embracing the amateur teams of Edmonton, Strathcona, Lacombe, Wetaskiwin, Red Deer and Olds.

The club intends to make Saturday afternoon hockey matches a feature this coming winter, as they believe it would be better to promote the game in this way and draw larger crowds.

The club has some splendid amateur material to choose from, as the following men from last year's play are still in the city: Rossell, Anderson, Hennessey, McKenzie, A. and F. McNeill, MacArthur, McLeod, Scott, and McDonald, while several new players in the person of Powers, Hird, Pearson and Dunn will be in the team.

OLD MAN IN LONG TRAMP.

Edward Payson Weston aged 89, the man who is trying to cross the continent by walking from Portland to Chicago, arrived in this city yesterday, having been on the road for 40 days. He is a small, thin man, with a long white beard, and is dressed in a simple, old-fashioned suit. He is a well-known figure in the West, having been a pioneer and a successful ranchman. He is now on his long tramp, having left Portland, Maine, on October 14th, and is now in the city of Calgary, Alberta. MEET CALGARY SATURDAY.

The Edmonton Rugby football team will play in Calgary next Saturday. This will certainly give up the sport that has been so popular in Edmonton. The team is a well-known one, having won many games in the past. They are now on their way to Calgary, and will play the team from the city of Calgary. The game is expected to be a very interesting one, and will attract a large crowd of spectators.

TO GET AFTER LONGBOAT.

Montreal, Nov. 13.—When Tom Longboat went to Montreal to race on the King's birthday, H. A. Sprague, secretary of the Athletic Federation, said: "Some statements have been made, and I understand that the race is not sanctioned by it, and that all who compete will be suspended by it. We have not as yet been stated, taken this action because Longboat was suspended by the A.A.U., but we have taken it on our own initiative for reasons that will be made public later on. The Federation wishes to have a thorough investigation of Longboat's case, and incidentally it will gather some information about the Irish-Canadian Athletic Club of Toronto, under whose auspices the Indian is racing. The result may be startling."

BIG BASEBALL DEAL.

New York, Nov. 13.—A big baseball deal has been put through by the New York Americans, after securing second baseman Ferrie from Boston, second baseman and shortstop Ferrie, Williams and Hoffman to New York Americans in exchange for Gladys, Fred, and Henry. Manager Clark Griffith of the Yankees, who is in the city, completed the deal over the long distance telephone. The changes will make a big difference in the lineup of the New York and St. Louis teams, and means that Griffith will be able to land other deals in the future. The trading began when Comiskey gave Jake Stahl to Boston for Ferrie. Boston then turned around and traded Stahl to New York for Laporte. Whether Stahl can be traded to Boston to go to the Highlanders remains to be seen. It is reported from California that Fred Buschman of the Highlanders has gone into business in his home town and will play the major league next season. However the chances are Griffith will be able to land other deals in the future. The trading began when Comiskey gave Jake Stahl to Boston for Ferrie. SOCIETY OF EQUITY TO WIND UP ITS AFFAIRS

An Annual Meeting in Calgary, J. M. Moran, President, Was Retired—Members of Company Want to Get Out.

Calgary, Alta., Nov. 14.—The annual shareholders' meeting of the Society of Equity Co., Ltd., was held here yesterday, and the delegates out of J. M. Moran, who was president of the organization of the company a year ago.

The aim of the society was to unite the farmers of the province, in order that they should derive benefit from their labors. The great majority of delegates present, representing in all 500 votes, did not approve of Moran's administration, and the result was that he was retired and another president, David Grier, of Macleod, was elected.

The very evident wishes of the shareholders appeared to be to get out of the company with as little loss as possible, and the expressed intention of the new president and board of directors is to wind up the affairs of the company at once. The new directors are: Long, W. J. Grier, Thomas, Margate, H. W. Wood, M. Owens and M. Matheson.

SOCIALIST DEMONSTRATIONS

Against the Kaiser—Rising in Streets of Old London.

London, Nov. 13.—Fierce rioting occurred in the streets this afternoon between bodies of police and throngs of socialists bent on a demonstration against the Kaiser. The outbreak was preceded by a monster meeting of many thousands of unemployed men on Tower Hill, at which "Jack" Williams, socialist leader, delivered an address, fiercely denouncing the city authorities for banqueting the foreign ruler while thousands of Englishmen were starving in the streets. From Tower Hill, Williams led the procession towards Guild Hall, a body of police met them and on being turned round the throng hurried in the direction of St. Paul's, hoping to interrupt the Kaiser's procession. On the road the still larger force of police barred the way, and when the socialists attempted to force their way through the lines they drew their maces and began beating back the demonstrators by main force. After several minutes had been knocked unconscious the crowd finally broke up, compelled to turn aside, and completed its demonstrations by a parade along Victoria street and the embankment.

SHRUBB BEAT MARSH.

Winnipeg, Man., Nov. 14.—Shrubb beat Marsh in the 100-yard race at the best match 53 mile race over pulled off in this city. The race was over the ten laps to the mile track in the arena circle, and the start was even. In the still another race two laps through the stadium, Marsh beat Shrubb, but Shrubb stopping to change his shoes as the spikes were being laid, and aside from this he was only about forty yards behind Marsh. Shrubb, however, another lap but lost more than half of this in the last two miles, and was limping somewhat at the finish, but otherwise in good condition. So was Marsh, who as usual did the best of his training, and he was not tried to sprint in the fourteenth, but he was a real half of a lap. Shrubb, who was a good sport in 41 minutes and 40 seconds. SPORTS BRIEVITIES.

Father Stanton of Ottawa College says that it is not at all improbable that the Capital City University will be represented in the senior series of the Interprovincial league this winter.

Because Montreal trimmed the Ottawa Giants last Saturday afternoon 2 to 0, and have won three of four games played they are the champions of the Interprovincial league.

There was a real lot of fistic art displayed in the Rugby game at Edmonton on Saturday, both during and after the game. The players put it down to the difference in English and Canadian Rugby by Mattie Gosselin's claim.

"Gunner" Mair, the English heavyweight champion, has accepted a place in the world's championship fight with Tommy Burns, the Canadian, in their bout at the Casino, Montreal.

By defeating Varsity Queens are undoubted soccer champions of the Interprovincial league. The score was 2 to 0, both goals being netted by Drury in the last half. The first was scored a minute after the whistle blew for the second half.

Jockey "Jimmy" Foley, of Toronto, was thrown in a race at Dallas, Tex., yesterday. One of his legs was burned as well as his ankle, and he was on his arrival in St. Antonio taken to the hospital. At last accounts he was doing well and expected to be out in a few days.

Queen's University and the 14th Regiment of Kingston will have strong teams for the football season, and will try for the championships in the union they belong to. For Queen's team there are: Bennett, goal; Macdonald, point; Crawford, MacLaughlin, center; DeLeon and Campbell, half-backs; and the 14th Regiment team have: Hiseck in goal; James Richardson, Constantine, and Van Horn for point and cover; Berens, Feltner, George Richardson, and Howell for full-backs.

The Arrived, the English horse owned by Mr. McCracken, of Manitoba, was turned over to a Canadian owner and will be taken to Los Angeles. Joe came out of the stall at Sunny Side Farm this fall, and it was his intention to race him at Oakland, but when he got to Lathrop the Arrived was again the journey made the country with him. The Arrived was sent back here to the States about a week ago. He has been entered in all of the long-distance stakes for both meetings in California.

Kaiser to Meet Tail.

Paris, Nov. 13.—Tempest of Germany has invited Secretary Tail, of the United States, to visit him in England.

Toronto's Mayor Will Retire.

Toronto, Nov. 13.—Mayor Coates' word announces his retirement from the mayoralty campaign. The intention of the date of the mayor's resignation was the statement of his physicians that he could not stand the strain of another campaign. He has been ordered to take a rest, as he is pretty well worn out. A few months ago he had to take a trip south on account of his health.

ONE OF THE LARGEST RINKS IN THE NORTH WEST FOR EDMONTON.

Work will commence immediately on the Central rink, which is to be situated on Macdougall Avenue, south of Jasper, between the St. John's Co.'s Office and the Grand View Hotel. This property has a frontage of one hundred feet and runs back Two Hundred and Seventy feet, which will give an ice surface of about Twenty-Seven Thousand and out, one of the best in the West. A skating rink in a central location has long been looked for in the City, and when all arrangements are completed the Central rink will be found to be up to date and to afford every comfort and convenience possible. The rink will be run under the management of Mr. Charles G. Macleod, and Fred A. Hilliard.

Interesting Food Facts

There is more albumen and fibrin (the strength giving elements in beef)—in a bottle of Bovril than in a ton of solid Beef Extracts.

Without these principles animal life can neither be built up nor sustained.

They are essential to life.

Bovril is a scientific discovery not simply a mechanical reduction.

It is absolutely standardized.

That is, its constituents do not vary, a fact which physicians appreciate.

Bovril is the only preparation that retains the thusive life giving—Life sustaining principles found in beef.

Bovril is a boon alike to invalid and athlete.

Caldwell the Unanimous Choice.

Brandon, November 14.—A Conservative convention, held here today, to nominate a candidate to fill the vacancy in the legislature caused by the death of Hon. Dr. McManis, was largely attended. The unanimous nomination was tendered Alderman R. G. Caldwell, who was nominated by the Hon. Mr. McManis.

Wallace was credited here with legislative ambitions. The meeting also passed a resolution to the effect that Caldwell should be at once appointed to the vacant vacancy.

Hill Gets the Call.

St. Paul, Nov. 13.—The commercial club of Kansas City is in a predicament. It invited J. Hill, Mayor Johnson, of Cleveland, to speak at the Johnson dinner. Hill accepted. The invitation was to attend at Johnson was there. The Kansas City club has asked Johnson to cancel his acceptance.

Lacks Burnt at St. Catharines.

St. Catharines, Nov. 14.—At an early hour this morning three large boat houses situated at lock 2 of the old canal, were totally destroyed by fire with a yacht and a number of row boats and canoe. The loss will be \$1,000, partially covered by insurance.

The regular weekly meeting of the young men of the Baptist church will be held this evening at 8 o'clock.

The annual meeting of the young ladies club will be held in the club room on Monday next, Nov. 15, at 8 o'clock.

The main pupils of Alberta College have returned to the annex recently opened and the two upper grades of the main building are now occupied by the ladies.

The ground is being prepared for an open air rink on McHugh's vacant south of the Sixteenth road estate, at 811. It will be in charge of Fred A. Hilliard and Charles McHugh, the above firm.

At the Police Court last night the case of the Chinaman Noh Joo for receiving stolen goods was further adjourned till Friday night. The case was on before Magistrate T. H. Wilson and Foster of the city offices.

At the office of the building inspector this morning, A. D. Wilson, Newwood, took out a permit for a \$2,000 house and stable. Nine permits for small buildings were issued to Hugh McKay, McCullough, A. G. Heston, First; and H. Meyers, Queen.

The opening session of the mock parliament in connection with the young men's club of McHugh's church will be held this evening in the lecture room of the church, commencing at eight o'clock. Mr. C. Racco is to be premier and Mr. E. Richardson leader of the opposition.

The road from Stony Plain to Bowman is making good strides towards completion. Mr. Hagle, the energetic road foreman, is making a large gang of men and is pushing things. This part of the road is well settled and the necessity of a good road into town is very apparent.

Rev. George T. Webb, International General Secretary of Baptist Young People's Union of America, will be making a tour of the west, will preach in the Baptist church next Sunday at 10 o'clock. The close of the service a mass meeting of the young people will be held, at which all young people of the city are cordially invited.

Frank Dowling, formerly of the fire department of the Bulletin, now on the staff of the Moose Jaw News, returned in the evening on the steamship Rice, in Moose Jaw, this week. The boy broke through the ice on the river and was in grave danger as sinking when he crawled along the ice on a ladder, until he was rescued by the boy just in time.

C. P. R. PROSECUTION.

The adjourned hearing of the prosecution against the C. P. R. for alleged violation of the Labor Law, Day of the Law, was held this morning. The case was on before Magistrate T. H. Wilson and Foster of the city offices.

Inspector Worley two weeks ago it was arranged that it should be continued immediately before the magistrate, which is not down for next Monday. Rev. E. J. Johnson, minister of the C. P. R., is now in Winnipeg and Mr. Bennett, minister of the C. P. R., has asked Deputy Attorney General Woods that the case be postponed till a later date to be arranged by the counsel.

MORE LUMBERMEN INDICTED.

In addition to the twelve members of the Alberta Retail Lumber Dealers' association mentioned in a previous issue of the Bulletin on Tuesday, indictments have also been preferred against J. C. Cushing, of Edmonton, and A. J. Robertson, of High River. These names were included in the list of defendants in the preliminary hearings, as their connections with the Alberta Retail Lumber Dealers' association was not established in the law in the investigation.

In the evidence taken before Inspector Worley, however, the connections of Cushing, Robertson and Robertson was disclosed by Secretary Grogan, with the result that indictments have also been preferred against them by the attorney-general.

PRICES OF ALBERTA FURS.

The McMillan Fur and Wool Company of Minneapolis, Minn., have just issued their latest circular containing quotations with reference to the fur market, and a variety of other information.

Bear skins, black in best quality are quoted at \$35; brown in cinnabar, silver or silver tip, \$35; and polar, fur skins, head and feet, \$25. These are for No. 1 or prime grade skins, while lower grades will make lower prices according to quality.

Black furs are quoted at \$350. Silver grey at \$250, the ordinary Alaskan, \$150 and the Alaskan at \$100. Marten range in price from \$45 to \$100, according to size and grade; mink from \$60 to \$100; ermine from \$25 to \$100; and beaver from \$50 to \$100. These prices are for all numbers, but the quality is large. For each lower grade the prices drop from ten to fifteen per cent.

CHINAMAN GOES FREE.

At the Supreme Court this afternoon Chief Justice Justice Stinson dismissed the case of the Chinaman Noh Joo, accused of stealing \$167 from the Royal Hotel at Spruce Grove. The evidence for the prosecution was so contradictory and when the defendant went upon the stand and positively denied the theft, explaining that the money found in his boots was kept there in accordance with the custom of the Chinese of utilizing their footgear for bank purposes, that the evidence was not sufficient for conviction. An order was made by the court for the return of \$167 found in the Chinaman's boots as well as \$12 found elsewhere.

H. H. Robertson appeared for Wm. and E. B. Connolly for the crown. The case of Donnelly, of February, will come on tomorrow next. It is probable that the jury trial will be held at the end of the week. This is the only civil jury case.
